

# Make the most of your database budget with PDF-4+Scholar!

## What is PDF-4+Scholar?

PDF-4+Scholar is an incentive available solely for our academic customers who qualify under ICDD's academic license policy. PDF-4+Scholar is a five-year multi-year license package for PDF-4+, which includes a license for Sleve+. It is identical to PDF-4+ in content and capability. The difference is in the licensing terms—the PDF-4+Scholar Package offers an extended license term of five years on the last product release in the multi-year license. The PDF-4+Scholar Package is available on CD, DVD or USB.

## How do I qualify for PDF-4+Scholar?

An academic price is awarded to degree-granting (Assoc., B.S., M.S., Ph.D.) institutions. The name of the institution must appear on the degree in order to qualify for the academic pricing. Institutions may be required to submit documentation to verify eligibility.

## Is there a "buy-in" for the PDF-4+Scholar Package?

Customers will need to purchase the current release of the PDF-4+ and Sleve+ in order to purchase the PDF-4+Scholar Package. Customers with a current release of the database will only need to purchase the PDF-4+Scholar Package.

## How will I receive the PDF-4+Scholar Package?

Like all PDF-4+ products, the PDF-4+Scholar Package is handled by automatic subscription. Your yearly automatic renewals will be shipped based on the anniversary of the original invoice for the PDF-4+Scholar Package. For each year in your PDF-4+Scholar multi-year license, you will receive the newest release of the PDF-4+. The last release in the package will be the PDF-4+Scholar product, which is licensed for five years.

For customers who purchased the PDF-4+/Sleve+ "buy-in" and the PDF-4+Scholar Package, you will receive six new releases of the PDF-4+, which includes the initial "buy-in" release. The first five PDF-4+ releases will be licensed for one year. The sixth or last release will be licensed for five years.

For customers who purchased only the PDF-4+Scholar Package, you will receive five new releases of the PDF-4+. The first four PDF-4+ releases will be licensed for one year. The fifth, or last release, will be licensed for five years.

**Please note:** With each new release in your multi-year license, ICDD recommends that you contact your software vendor to determine your data analysis software requirements.

## What is a multi-year license?

In addition to the PDF-4+Scholar multi-year, ICDD offers three-year and five-year multi-year license renewal pricing that provides savings on yearly license renewals, along with fixed pricing on the renewal for the purchased license term. Multi-year pricing is available for PDF-2, PDF-4+, WebPDF-4+ and PDF-4/Organics. If the price for these products increases during your multi-year license period, you will not be billed the difference.

## How do I register my products during the multi-year license?

Each PDF-4+ database that you receive during your PDF-4+Scholar multi-year license will require registration. ICDD products are automatically activated for a temporary license period (10 days) with the initial installation. You are required to register your database in order to obtain a full license from ICDD to extend beyond 30 days. Our integrated registration software will guide you through the registration process. The registration information may then be sent to ICDD by the web (preferred), e-mail, fax or mail. When we receive the registration information, a registration key for the full license will be created and sent to you.

## Can I add the PDF-4+Scholar Package to my site license?

PDF-4+Scholar is only available as a single PC license. It will not be eligible under the site license offering.

## I have a multi-year license ending with the 2018 release of PDF-4+. Do I need to purchase the "buy-in" to the current release in order to purchase the PDF-4+Scholar Package?

Customers with existing multi-year licenses ending with release 2018 (for either PDF-2 or PDF-4+) may purchase the PDF-4+Scholar Package when their multi-year license expires. Customers will not need to purchase the "buy-in", as long as an order is received before August 1, 2018. Customers with an expired 2016 multi-year license will need to "buy-in", then purchase the PDF-4+Scholar Package.

## What are my license options at the end of the PDF-4+Scholar Package?

At the end of the PDF-4+Scholar Package, you will receive the PDF-4+Scholar product that is licensed for five years. You may choose to run the license for five years or purchase a new PDF-4+Scholar Package. If you purchase a new PDF-4+Scholar Package, you will not need to purchase the "buy-in" to the new release. You will purchase only the PDF-4+Scholar Package.

**Please note:** If you choose to purchase a new PDF-4+Scholar Package, the license term for your original PDF-4+Scholar Package will be terminated. The new license replaces the initial license, thus it cannot be re-registered.

## What happens at the end of the five-year license term for the PDF-4+Scholar product?

At the end of the five-year license term, you will need to re-register your PDF-4+Scholar product in order to receive one additional five-year license, unless you have purchased a new PDF-4+Scholar package. Please see the product warranty below for further information.

## Can I purchase the traditional multi-year license?

ICDD will continue to offer the current three-year and five-year multi-year license renewals for academics that wish to purchase it.

## What is the product warranty?

The product warranty is on the preferred computer specifications associated with the product release. If you need to change your computer specifications, ICDD recommends that you reference the ReadMe.txt or product insert for your product release to check for compatibility.
