

ICDD LICENSED VENDORS

ICDD continues to work with vendors to have the database work seamlessly with a wide range of commercial data analysis programs. ICDD vendors provide ICDD products throughout the world. Vendors frequently offer additional services such as state-of-the-art X-ray analysis hardware, sophisticated custom software integration and regional support services. Many equipment manufacturers have offices worldwide, while regional distributors may represent several countries. Please visit their web sites for a complete list of their local branches.

Customers in Japan, Korea and Russia must order through an ICDD licensed vendor.

**ICDD'S VISION**

The International Centre for Diffraction Data will continue to develop tools and support the education required for materials analyses of tomorrow.

ICDD'S MISSION

The International Centre for Diffraction Data will continue to be the world center for quality diffraction and related data to meet the needs of the technical community. ICDD promotes the application of materials characterization methods in science and technology by providing forums for the exchange of ideas and information.
