

ICDD Database-Driven Websites

Yuming Si, International Centre for Diffraction Data, Newtown Square, PA

The ICDD database-driven websites were updated as needed for conferences, Grant-in-Aid (GIA), scholarships, product registration, etc. AXA search main page interface was changed: Replaced all “browse volume” links from left bar with a single combo box. Removed all “search volume” links from left bar. AXA registration and login pages were created to collect user’s email address for announcements, advertisement, etc. PLU2016, ORG2017 and editorial databases were combined for GIA chemical search. DXC abstract reviewing process was also updated.
