

ICDD LICENSED DISTRIBUTORS

ICDD works with a global network of licensed distributors to provide ICDD products throughout the world.

Our network includes equipment manufacturers, regional distributors, and licensed software developers who program commercial data analysis programs that work seamlessly with our databases. Distributors frequently offer additional services such as state-of-the-art X-ray analysis hardware, sophisticated custom software integration, and regional support services. Many equipment manufacturers have offices worldwide, while regional distributors may represent several countries. Please visit their websites for a complete list of their local offices.

Customers in Japan, South Korea, and Russia must order ICDD products through an ICDD licensed distributor.
